

Youth CAMP

Are you looking for a unique opportunity this summer? Do you love animals and enjoy being outdoors?

Kindred Farm is offering a four-day retreat for young adults to bond with farm animals and make connections with others who value the same things as you. Kindred Farm, located in Aldergrove, BC, is a safe haven for unwanted animals who in turn become therapy animals for our community programs and camps.

**JUL
27-30**

Ages: 15+
Length: 4 days
Time: 9am-3pm
Cost: \$200
Space is limited.

Activities entail taking care of farm animals and their environment, and working in teams to improve the habitat of our residents. We will work hard in the morning, then come together to prepare and share a compassionate lunch together. After lunch there is an opportunity to spend time alone on the property or with an animal, or participate in an activity with our horses. (Take the horses for a walk, learn how to groom and clean their feet, teach a horse a new trick, etc.)

By participating in challenging activities within a safe environment, you will gain skills and learn a little bit more about yourself.

After 4 full days at the farm, you will go away stronger, more confident, and with new connections.

Space is limited, register today. Subsidies are available, please ask Chris to learn more. chris@sali.ca

Healing hearts—one person, one animal at a time.

Each camper will choose a project and work with a teammate to complete it during the week. This could be a chicken obstacle course, fire pit, bird house or make a toy to enrich our animals.
